

Trackefy

Real-time school bus tracking

Know where the school bus is.
Every step of the way.

A simple, connected platform for schools, drivers and parents—without dedicated GPS hardware.

Smarter journeys. Better visibility.

Live Bus Tracking

View the real-time location of every active school bus.

School Transport Dashboard

Monitor buses, drivers, students and active trips from one place.

Route & ETA

See the bus route and expected arrival time for better planning.

Smart Journey Alerts

Receive trip-started, nearby, arrival and trip-ended updates.

No GPS hardware

Trackefy uses the driver's smartphone for live location sharing no dedicated tracking device or complex installation required.

Trackefy

Smarter tracking. Better visibility.

Benefits

For Schools

- ✓ Fewer repeated parent calls
- ✓ Easy monitoring from one dashboard
- ✓ Better communication and trust
- ✓ Quick setup with no hardware installation

For Parents

- ✓ Live location of the child's bus
- ✓ Accurate arrival estimates
- ✓ Instant journey alerts
- ✓ Greater peace of mind

How it works

1

Driver starts the trip

2

Phone shares location

3

School monitors buses

4

Parents get updates

Start with a focused **pilot program.**

Select a few buses, onboard drivers and parents, and experience real-time tracking before expanding across the full fleet.

01

Set up

Select pilot buses and onboard drivers, routes and parents.

02

Go live

School and parents begin using Trackefy for real-time tracking.

03

Evaluate & scale

Collect feedback, measure the experience and expand to the full fleet.

Quick to set up.

Easy to evaluate.

Ready to scale.

Let's make school journeys safer and simpler.
